## A Letter from our Board President

Greetings,

As we reflect upon 2023, we have so many things to be thankful for, including our generous donors, active volunteers, our board, and our team.

In 2024 we will experience some change as our Executive Director, Summer Hammond leaves United Way and embarks on a new adventure. Summer has been pivotal in leading our board, creating positive change, and positioning us well to navigate our future. Summer will be dearly missed.

We also say goodbye and thank you to Carolyn Glesne, for the many years she's served Otter Tail and Wadena counties. Her dedication to the communities has been unmeasurable.

Finally, we look towards a new year, with hope, optimism, and commitment from our board. Our dedication continues to work to improve and find new ways to reach people within our communities. I challenge our dedicated board, community members, and volunteers to continue to find new ways to support our mission of improving lives in the communities we serve.

*Medley*

# HEALTH

Improving people's health status through higher levels of positive health and lower levels of disease for overall improved quality of life.

*"We have a participant who became familiar with the OAKS program when given a ride to a medical appointment. This participant suffers from depression and anxiety and needs knee surgery. We coordinated their appointments for the surgery and provided transportation to the surgery. The day before the surgery the participant wanted to cancel the surgery. We informed them we would be with them until they were rolled down the hallway for the surgery. Afterward, we coordinated their care and provided grocery shopping and home visits. It went so well that the participant scheduled the second surgery on the other knee. We continue to work with this participant and because of the support and services we provided; this participant can remain in their home."*

# FINANCIAL STABILITY

Promoting financial stability & independence to ensure that basic needs of food, housing, clothing & safety are met.

*We express profound gratitude for the invaluable assistance provided by Legal Services of Northwest Minnesota. Their impactful work extends to those struggling with housing insecurity. Witness the impact of your contributions as we share a poignant testimonial.*

*A dedicated Legal Services attorney recently represented a client in a challenging eviction case. The client, a single mother of five young children, had secured a new place to live but required additional time for the transition. Faced with the prospect of homelessness and the associated disruptions and traumas for her children, she approached the situation with understandable trepidation. The attorney worked diligently to negotiate an agreement that granted the family the necessary time to move, thereby averting homelessness for her and her kids. Furthermore, the eviction case was ultimately dismissed, leaving her with a clean record for future rental endeavors.*

Helping children and youth achieve their potential by supporting their learning, development and sense of belonging to raise responsible and contributing adults.

*"We had two kids this summer who had never had the opportunity to swim or learn how to swim. This summer was the first time the two kids went swimming. They were super scared with their life jackets on, but after a week or two of the staff working with them and them getting comfortable in the water, they were able to take their life jackets off in the shallow end and absolutely loved the water. Seeing them grow their confidence in themselves and their abilities was so great to see."*
